

Child Development Associate Credential Summary

This report contains all verified training categorized as Infant/Toddler, Preschool, Early Childhood, and Business. An individual training(course) can only have one category represented. To support CDA candidates with the most information available, the course category indicated by the training sponsor is listed and then a description of the course is provided to support determining whether the training content meets the requirement for the type of CDA (Infant/Toddler, Preschool, Birth to Five, or Family Child Care). Training taken before 7/1/2016 was not processed through the current Registry data system and is not included in this report.

This report does not contain For Credit training hours. Please see the Learning Record for College Credit breakdown.

The NWRA has recognized the North Dakota Early Childhood Workforce Registry as a state workforce registry.

Early Childhood (Ages 0-8)

Title	Date	Hours	CEU
Getting Started	8/28/2019	15.00	
Age Group	Preschool		
Topic Area	Planning a safe, healthy learning environment		
Sponsor/Trainer Name	Child Care Aware® of North Dakota		
Description	Getting Started is an introductory course to help get your career in early care and education off to a great start and make a positive impact on young children's lives. Learn about child development, responsive interactions, safe and effective environments, health and nutrition plus abuse and reporting. This training satisfies the basic child care requirement for staff at Department of Human Services licensed centers, school-age programs, preschools, groups and family child care programs as well as self-declaration providers and must be completed within the first three months of hire.		

Child Development Associate Credential Summary

Early Childhood (Ages 0-8)

Title	Date	Hours	CEU
Introduction to GOLD presented by Teaching Strategies (Bright & Early ND Step 3 Module)	7/1/2019	14.00	
Age Group	Preschool		
Topic Area	Observing and recording children's behavior		
Sponsor/Trainer Name	Bright & Early ND		
Description	Learn the basics of the Teaching Strategies GOLD, an authentic, ongoing, observation-based assessment system. GOLD supports effective teaching and assessment, while providing you with more time to spend with the children in your program. Accessed through MyTeachingStrategies™, GOLD automatically links teaching and assessment, making it easier to connect the dots across the most important aspects of high-quality early childhood education.		
Overview of Curriculum	6/29/2022	2.00	
Age Group	Preschool		
Topic Area	Planning a safe, healthy learning environment		
Sponsor/Trainer Name	Child Care Aware® of North Dakota		
Description	This online, self-study course is available 24/7 and includes quiz questions you must answer and receive a score of 80% or higher to receive credit. Development is so important in the early years that you do not simply want to hope that children get all of the opportunities they need to learn. You want to put a long-term plan in place to make sure learning happens. Your plan for children's learning is called curriculum. Choosing a curriculum is a big decision. With so many options available, where does a person begin? In this course you will tackle the important questions, so you make a decision that feels good and gives children the skills they need to be prepared for school and life.		
Schedules, Routines and Transitions	7/7/2022	2.00	
Age Group	Preschool		
Topic Area	Planning a safe, healthy learning environment		
Sponsor/Trainer Name	Child Care Aware® of North Dakota		
Description	This online, self-study course is available 24/7 and includes instructor-graded evidence of learning essay questions where you apply the skills and knowledge you learned throughout the course. Life in an early care and education program is filled with activities that promote learning and development. Many of these activities are repeated day after day as well as provide a structure for the day. Despite the large amount of time that is spent daily on these activities, they are not always valued as much as teacher-led activities, group time and free play. In this course you will learn how routines, schedules and transitions are as essential and important as any other aspect of a child's day.		

Infant/Toddler (0-35 months)

Title	Date	Hours	CEU
SIDS (ONLINE)	8/28/2019	1.00	
Age Group	Infant/Toddler		
Topic Area	Planning a safe, healthy learning environment		
Sponsor/Trainer Name	Child Care Aware® of North Dakota		
Description	About 3,600 infants die suddenly and unexpectedly in the U.S. each year. Although the cause of death often can't be explained, most of these deaths occur while the infant is sleeping in an unsafe environment. Learn what you can do to practice safe sleep and reduce the risk of SIDS in your program. This online, self-study course is available 24/7 and includes quiz questions you must answer and receive a score of 80% or higher to receive credit.
